

## Period Program Overview

## Period Program Overview

## Hi! I'm Claire,

I founded Aunt Flow after getting my period in public without the supplies needed. At 18-years-old, I dedicated my life to developing a solution to ensure businesses and schools could sustainably provide quality period products for free in bathrooms.

Aunt Flow products are made with organic cotton (no weird stuff) and we are constantly working to reduce our environmental impact.

For every 10 menstrual products sold, Aunt Flow donates 1 to non-profits. To-date, we have donated over 1.6 million products to menstruators in need.

*We call this people helping people. Period.®*

## Claire Coder & The Aunt Flow Team

# Why Aunt Flow?

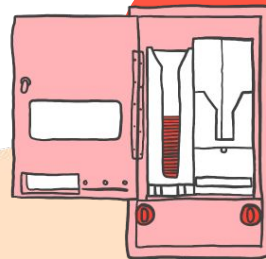

## Business Perspective

Certified  
**Women-owned**  
business.

**50 unit capacity** (2X more than  
other dispensers) ensures  
product availability  
throughout the day.

**Quick loading dispenser** (4X  
faster than other dispensers).

**Window** for viewing product levels.

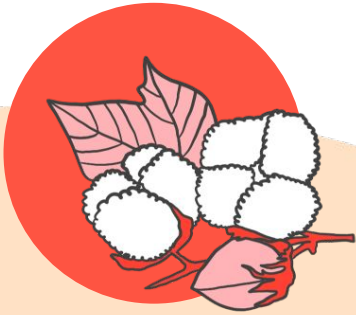

**Sustainably produced**  
products.

# Why Aunt Flow?

## Customer Perspective

Menstrual products are **GOTS certified organic cotton** and comfortable.

Made **by menstruators, for menstruators.**

**Give-back program,** for every 10 products sold, 1 is donated.

**Relatable brand** that resonates with end user.

# Success Stories

**Of Aunt Flow product users,  
81.15% recommend or strongly  
recommend Aunt Flow products.**

"These are really changing the game for menstrual hygiene accessibility in college — every university should have these!"

"In determining the company to work with to bring menstrual products to Princeton's campus, the Menstrual Products Task Force looked beyond simple costs. We wanted to support an entrepreneur in the menstrual equity space who also had an eye for sustainability and a marketable product to the campus community, and Aunt Flow checked off all of those boxes for us."
